ABOUT US

Established in 2000, we've worked with many of our customers for over 20 years and look forward to working with Cranfield University.

We are a family-owned business with a dedicated and experienced team. Customer service, sustainability and providing value for money is at the heart of what we do.

We are located in The Chilterns just 40 minutes from Cranfield University.

HERE TO HELP

Your dedicated Account Manager is David Cogger, he will be onsite once a week and he can be contacted on the below details:

M: 07725 962968 E: david.cogger@prs-officefurniture.com

Alternatively, you can call the main office Monday to Friday 8am to 5pm and one of the team will be happy to help you.

T: 01296 664100 E: hello@prs-officefurniture.com

MEET THE REST OF THE TEAM

SOME OF OUR SERVICES

SPECIALIST CHAIRS

Our easy-to-complete seating assessment form and our trained seating assessor will help identify the right chair.

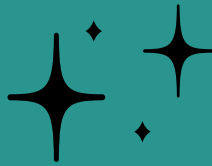

P31

SPACE PLANS

We can help you make the most of your space by producing space plans to fit your brief.

SPECIALIST CHAIRS

We can help improve your ergonomic well-being – Simply complete our seating assessment form and our trained seating assessor will help identify the right chair.

For more specific user needs our qualified DSE (Display Screen Equipment) assessors can not only provide ergonomic workspace assessments but also have the furniture knowledge to recommend equipment to users' specific needs.

Any questions give the team a call on 01296 664100.

Seating Assessment Form

Please complete the seating assessment form for the assessment carried out. All sections must be filled in fully to allow us to identify the most suitable chair model for your specific requirements.

Taking correct measurements

Taking The Right Measurements For Your Assessment

In order to supply the right chair for each individual user, the correct measurements must be taken.

Use the diagrams and guidelines illustrated below to specify the correct type of chair. All measurements are in mm and should be taken with the person in a seated position. A chair that promotes an upright back posture while working at the desk is encouraged.

NOTE: The measurements should be taken from the body, in a seated position, not of the chair. For example when taking the Seat Depth Measurement this should be the measurement from the back of the buttock to the back side of the knee when you are in a seated position not the back for the chair to the front of the chair.

Taking User Measurements

A. Seat Width
 This measurement is taken from the width of the hips at the widest point. It may be easier to measure the person sat on a chair without arms.

B. Seat Height
 Measure from the back of the person's knees to the floor. Make sure the user is in a seated position and the feet are flat on the floor. Ensure their typical footwear is considered.

C. Seat Depth
 Taken from the back of the buttock to the back of the knee. NB. All Posture Collection chairs are standard with a seat slide that offers an additional 50mm of depth.

D. Backrest Height
 Whilst sitting upright, measure from the top of the seat pad to the top of the shoulder (the bony prominence at the outer edge of the shoulder). A headrest option for additional support is also available on selected models.

E. Backrest Width
 Sitting upright, measure across the back at the widest point.

Other Important Measurements

Armrest Width
 This measurement is taken from the top of the seat pad to the underside of the elbow ensuring their shoulders are relaxed. This will help determine whether the benefit of adjustable arms is required.

Armrest Width
 Measured from the inside of the arm pads in both standard and widest positions. A person exceeding the width of this dimension will not require adjustable arms.

Workstation Height/Thickness
 Measure the height from the desk surface to the floor. NB. Also measure the thickness of the desk and any obstructions. This will help identify what gas height the chair will require.

A: Unit 5 Harvington Park, Pitobone Green Business Park, Pitobone, Bedfordshire LU7 9GX | T: 01296 664300

SPACE PLANS

We can help you make the most of your space by creating space plans, whether you are using new furniture or existing furniture, we will make your space work.

REVIVE AND REUSE

We can help you extend your existing products' life by reupholstering or replacing damaged work surfaces or components. However big, small or obscure - We will do our best to help.

FURNITURE REMOVAL AND RECYCLE

We can remove your old furniture, either as a stand-alone project or while delivering new furniture. If the product is suitable, we'll make every effort to find it a second home and if we can't we will break it down into its constituent parts to maximise the materials that can be recycled. We have long-standing relationships with second-hand furniture dealers, local community and charity organisations and raw materials recyclers which means very little ends up in general waste.

PROACTIVE MAINTENANCE

We can help with initiatives services, audits or repair furniture within your estate.

Examples:

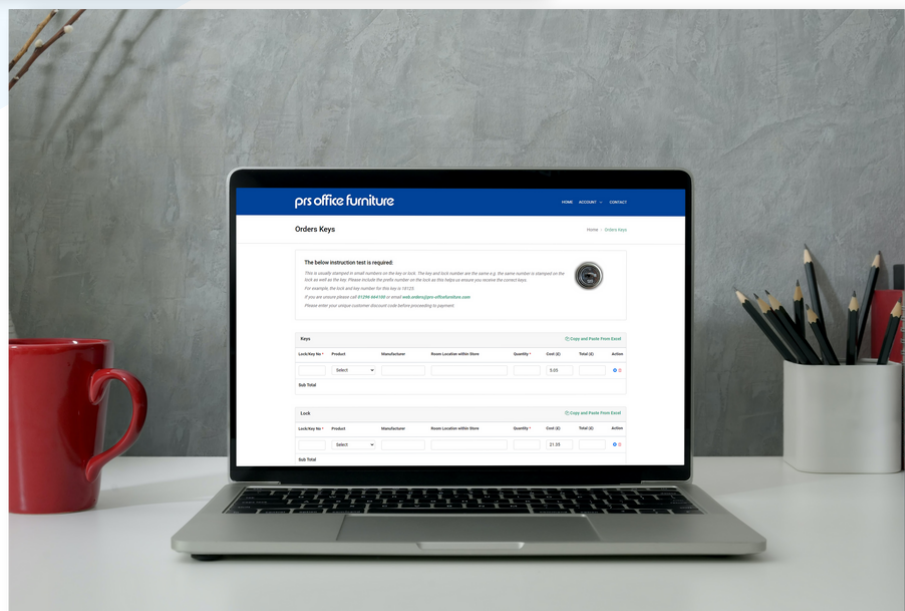

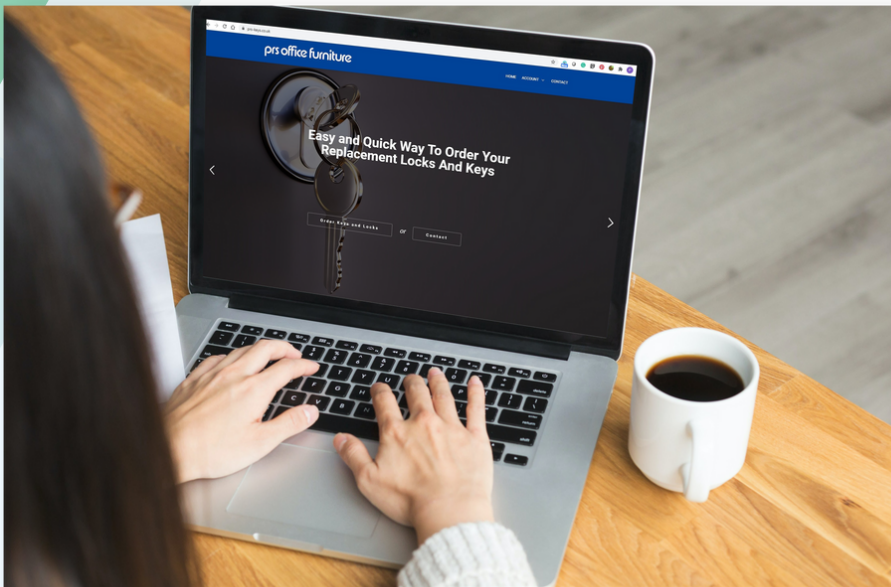

- Audit all lockers on the estate to establish the requirements to bring all lockers back into use i.e. replacement doors, locks, and keys.
- Clean upholstered items using specialist cleaning equipment.
- Collate and redistribute furniture across the estate.

REPLACEMENT KEYS

On our website www.prs-keys.co.uk you can quickly and easily order replacement keys for lockers and office storage.

1. Go to www.prs-keys.co.uk
2. Enter the key details.
3. On checkout use the discount code CRANUNI.
4. Pay with card or PO
5. Delivery will be within 5—7 days.

Any questions give the team a call on 01296 664100.
